The International Congress of Oral Implantologists is headed to Houston, America’s fourth-largest city, for this year’s ICOI Winter Implant Symposium, from Feb. 27–29. Houston is a cosmopolitan destination filled with world-class dining, arts, hotels, shopping and nightlife. As attendees will discover, the Marriott Marquis Houston is ideally located in the downtown district overlooking Discovery Green Park and is minutes from Minute Maid Park and the Toyota Center.

The three-day ICOI Winter Implant Symposium will kick off on Thursday morning with several pre-symposium half-day lectures and hands-on workshops. This will be followed by the popular “Young Implantologists Program,” which will include a wide array of pertinent topics from up-and-coming implantologists. Speakers include Drs. Greg Caldwell, Giuseppe Grasso, Inés Fernández Guallart, Ana Lopes, Stuti Muchhala, Christopher Resnik and Amanda Sheehan.

The ICOI believes these scientific sessions will offer up the latest scientific- and research-based information that attendees may immediately incorporate into practice.
