Dental implant world joins AAID in San Diego

Record 28 hands-on workshops and 11 seminars planned for annual educational conference

By AAID Staff

More than 1,000 implant dentistry professionals are expected to travel from around the world to learn from the top experts in implant dentistry, as well as from each other, over three- and one-half days.

A full day of presentations by clinicians from a dozen different countries will comprise AAID’s Leonard Linkow Memorial Global Symposium on Friday, Oct. 13.

A record 28 hands-on workshops and 11 seminars presented by renowned researchers and clinicians on topics ranging from sleep apnea treatment and management of gunshot wound injuries to replacement of the temporomandibular joint and the evolution of cleft lip and palate surgery.

A full-day implant placement and bone-grafting course on cadavers is offered along with a full day track on sedation, and the Anesthesia Assistant Education Program will focus on office-based anesthesia, and the Anesthesia Assistant Skills Labs will provide hands-on clinical training to assist with anesthesia administration.

AAOMS to host its 99th annual meeting in San Francisco

By AAOMS Staff

The American Association of Oral and Maxillofacial Surgeons (AAOMS) will host its 99th Annual Meeting, Scientific Sessions and Exhibition — one of the largest and most comprehensive educational conferences in the world developed exclusively for oral and maxillofacial surgeons and their staff — from Oct. 12–15 in San Francisco.

Approximately 4,000 doctors and other attendees will convene to learn and share innovations in clinical research, procedures and practice to ultimately improve patient outcomes. Oral and maxillofacial surgeons and their dental colleagues can gain expertise from attending sessions presented by renowned researchers and clinicians on topics ranging from sleep apnea treatment and management of gunshot wound injuries to replacement of the temporomandibular joint and the evolution of cleft lip and palate surgery.

Coversing the entire breadth of the specialty, the 26-plus hours of scientific and educational sessions are divided into more than 15 comprehensive curriculum tracks focusing on trauma management, reconstruction, corrective jaw surgery and more.

Highlights of the more than 110 educational sessions include:

• The popular preconference program will focus on office-based anesthesia, and the Anesthesia Assistant Skills Labs will provide hands-on clinical training to assist with anesthesia administration.

• With breakout sessions for further discussion, a Dental Implant Module will cover historical perspectives and state-of-the-art treatments, and a TMJ Module will discuss diagnosis and nonsurgical and surgical therapies for the temporomandibular joint — the most constantly used joint in the body.

• The Chalmers J. Lyons Memorial Lecture will explain “The Hidden Costs of Antibiotics,” including their unintended consequences and role in contributing to modern plagues.

• New this year, two cadaver workshops about pathology and cosmetic facial surgery at the University of Pacific’s Arthur A. Dugoni School of Dentistry will allow participants to perform procedures under faculty supervision.

• A two-day “Beyond the Basics” coding workshop will provide crucial information on issues such as health-care laws, reimbursement issues and compliance.

“AAOMS Annual Meeting is designed to be the most extensive educational program and exhibition for oral and maxillofacial surgeons, faculty, residents and professional staff,” said AAOMS President Douglas W. Fain, DDS, MD, FACS. “We have planned four days of stimulating courses and intriguing exhibits that will benefit doctors, their staff and their practices. We look forward to numerous opportunities for learning, innovation and networking.”

More than 200 vendors will display their products and services to benefit oral and maxillofacial surgery practices at the three-day exhibit hall at the Moscone Convention Center South. The exhibit hall also will feature a Social
Glidewell Dental to present educational symposium in Dallas

**By Glidewell Dental Staff**

Glidewell Dental, a leading dental research and development company, is celebrating its 47th year in business and is continuing its commitment to innovation and education in the field of restorative dentistry. The company has announced that it will be hosting a full-day educational symposium in Dallas, Texas, on November 17 at the Dallas Marriott Las Colinas.

### Symposium Details

- **Date and Location:** November 17, 2017, at the Dallas Marriott Las Colinas, located at 801 E. Las Colinas Fwy, Irving, TX 75039.
- **Event Name:** Glidewell Dental Symposium
- **Event Type:** Educational Symposium
- **Event Description:** The symposium will cover a wide range of topics, including esthetic dentistry, implantology, and other areas of expertise.

### Symposium Features

- **Keynote Speakers:**
  - Dr. Marius Steigmann
  - Dr. Glen Liddelow
  - Dr. Axel Zoellner
  - Dr. Ken Serota
  - Dr. Michael Norton
  - Dr. Doug Deporter
  - Dr. Gary Henkel
  - Dr. Andre Saadoun
  - Dr. Bernard Touati
  - Dr. Pankaj Singh
