ITI World Symposium 2010: 30 years of leadership, credibility

The International Team for Implantology (ITI), a leading academic organization dedicated to the promotion of evidence-based research and education in the field of implant dentistry, is celebrating the 30th anniversary of the ITI World Symposium in 2010.

Since the first ITI World Symposium in 1980, the meeting has developed into one of the most prestigious implant dentistry events worldwide. The event is attended by researchers and clinicians from every field around the world from every field of implant dentistry and related tissue regeneration. As an independent academic association, ITI actively promotes networking and exchange among its membership. ITI fellows and members, who now number more than 7,000 in total, regularly share their knowledge and expertise from research and clinical practice at meetings, courses and congresses with the objective of continuously improving treatment methods and outcomes to the benefit of their patients.

The ITI is active in three principal areas: research, development and education. In 50 years, the ITI has built a reputation for scientific rigor combined with concern for the welfare of patients. The organization focuses on the development of well-documented treatment guidelines backed by extensive clinical testing and the compilation of long-term results.

The ITI funds research as well as scholarships for young clinicians, organizes congresses and continuing-education events and also publishes reference books such as the ITI Treatment Guide series. For more information, see www.iti.org.
