HAGER Worldwide introduces MiraTray Implant Advanced, an implant impression tray with foil technology that allows you to easily create a high-precision impression tray in a matter of seconds.

With MiraTray Implant Advanced, no customized tray is needed. Abutments are easily viewed through the foil, plus you get a clean, precise impression with no overflow of impression material.

Not only is MiraTray Implant Advanced's patented foil technology easy to use, it combines the advantages of reposition (convenience, costs) with the precision of the pick-up technique. Compatible with all impression material and implant systems, MiraTray Implant Advanced is available in three sizes each for maxilla and mandible, for dentulous and edentulous jaws.

Bottom line? MiraTray Implant Advanced reduces the time necessary to take an impression, eliminates the grinding of the individual tray, eliminates a patient visit and saves the money that ordinarily would go to the laboratory. And it’s easy.

To place an order for MiraTray Implant Advanced, please call your preferred dental dealer. For more information, e-mail info@hagerworldwide.com, visit www.hagerworldwide.com or call (800) 328-2355.

Alternate speakers are Drs. Mike Shulman and Sheldon Winkler.

Founded by Dr. Maurice J. Fagan, Jr., in 1982 at the School of Dentistry, Medical College of Georgia, the objective of the academy is to support and foster the practice of implant prosthodontics as an integral component of dentistry.

The academy supports component and affiliate implant associations around the world, including organizations in Egypt, France, Jordan, Kazakhstan, Israel, Italy, Paraguay, South Korea and Thailand.

The academy holds an annual convention, international meetings in cooperation with its affiliate and component societies, offers continuing education courses and sponsors a network of study clubs in the United States.

The American Academy of Implant Prosthodontics is designated as an approved PACE program provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for fellowship, mastership and membership maintenance credit. The current term of approval extends through Dec. 31, 2013.

Meeting information can be obtained from the AAIP headquarters at 8672 E. Eagle Claw Drive, Scottsdale, Ariz. 85266-1058; telephone (480) 588-8062; fax (480) 588-8296; e-mail swinkdent@cox.net.

The AAIP website is www.aaipusa.com. A meeting program can be downloaded from the website.
