Where technology reigns

American Academy of Implant Dentistry and its foundation recognize dentists

The American Academy of Implant Dentistry recognized three dentists with the highest awards given by the academy during its recent 62nd annual meeting.

Named the recipient of the Aaron Gershkoff/Norman Goldberg Memorial Award was Emile Martin, DDS, FAAID, DABOI/ID, of Syracuse, N.Y.

An honored fellow of the American Academy of Implant Dentistry and a diplomate of the American Board of Oral Implantology/Implant Dentistry, Martin is a past president of the AAID and its foundation, as well as a fellow and past president of the Academy of Laser Dentistry. He is the recipient of the Academy of General Dentistry Lifelong Learning and Service Recognition Award.

The 2013 recipient of the Isaih Lew Memorial Research Award was Ulf Me Wikesjö, DDS, DMD, PhD, of Augusta, Ga. He currently serves as professor of periodontics and oral biology at the College of Dental Medicine, Georgia Regents

University. Wikesjö is the founding director of Sweden’s Laboratory for Applied Periodontal and Craniofacial Regeneration, and he was the 2008 winner of the prestigious US Prix Galien Award for Best Biotechnology Product. He is a diplomate of the American Board of Periodontology and is the author of more than 190 original articles, reviews and chapters of scientific journals and texts.

David Resnick, DDS, FAAID, DABOI/ID, of Ada, Minn., was named the recipient of the inaugural Paul Johnson Service Award to acknowledge AAID members whose volunteer efforts have been above and beyond the norm. He is an honored fellow of the American Academy of Implant Dentistry and a diplomate of the American Board of Oral Implantology/Implant Dentistry. Resnick served six years on the membership committee and continues his tenure on the admissions and credentials board. His efforts on behalf of the academy’s Central District have been instrumental in the resurgence of that district.

Established in 1951, the AAID is the only implant organization that offers dental implant credentials recognized by state and federal courts as bona fide. Its membership, which exceeds 4,600, includes general dentists, oral surgeons, periodontists and prosthodontists from across the United States and in 40 other countries.

For more information about the AAID and its credentialed members, visit the American Academy of Implant Dentistry’s website at www.aaid.com or www.thedentalimplantexperts.com or call the AAID at (312) 335-1550 or (877) 335-AAID (2243).
lence in Implant Dentistry — The Spanish Connection,” offered simultaneous translation, and live surgery presenta-
tions continued to be held throughout the meeting.

Perhaps the advancement of “Technology and Biology” was most prominent in the meeting’s Implant World Expo, in which dozens of companies brought the latest and greatest in implant den-
tistry innovation to share with attend-
ees. Whether attendees were looking for abutments, instruments, lasers, graft-
ing materials, cone beam or any other implant technology, it was likely to be found in the Implant World Expo.

Here is a sampling of the variety of events and activities that took place during the AAID Annual Meeting in Phoe-
nix:

- A live surgery broadcast from Phila-
delphia featured Drs. Thomas J. Balshi and Stephen F. Balshi, who aimed to fa-

Dr. Marius Steigmann
Dr. Glen Liddelow
Dr. Axel Zoellner
Dr. Ken Serota
Dr. Jack T. Krauser
Dr. Bernard Touati
Dr. Pankaj Singh

• “Vertical Augmentation Surgery” was the focus of a second live surgery, this one broadcast from Loma Linda Univer-
sity. Surgeon Istvan Urban offered an in-depth view of vertical ridge augmen-
tation using GBR. Flap design, bone graft

and membrane placement and tension-
free flap closure were demonstrated during the popular session. Dr. Joel

Rosenlicht moderated the presentation.

- In the Implant World Expo, Nobel Bio-
care hosted live clinical demonstrations

during the AAID Annual Meeting in Phoenix.
GIVE YOUR DENTURE WEARING PATIENTS THE SECURITY THEY DESERVE WITH EVERY SMILE.

Now it's possible for you to offer reliable, predictable, same-day small-diameter implants to your patients who are denture wearers. The miniMARK™ Dental Implant System is an affordable option for denture wearers. Precision engineered by ACE Surgical, it is the world's first small-diameter implant system to feature the renowned LOCATOR® Attachment.

BUY 12 miniMARK IMPLANTS GET 2 MORE PLUS THE KIT FREE*

* All miniMARK implants need to be on the same invoice. Free implant shipped with order. Offer expires Dec. 31, 2013. miniMARK® is a registered trademark of ACE Surgical Supply Co., Inc. LOCATOR® is a registered trademark of Zentech, Inc. Manufactured by ACE and Zentech.

SO MANY POSSIBILITIES.
SO SIMPLE TO USE.

The Synthetic Solution to Bone Regeneration

NOVABONE Dental Putty is the only graft material available in premixed, disposable, unit-dose Cartridges. Its patented system simplifies the delivery of graft to the defect site following minimally invasive surgical techniques.

Novabone Dental Putty has best-in-class handling while delivering predictable and reliable bone formation. Through a unique process called Osteostimulation, Novabone Dental Putty is engineered to accelerate natural healing and increase cellular activity required for cells to form new bone.

New to the Novabone family of products is the innovative 0.25cc Mini Cartridge and Mini Dispensing Gun. Ideal for filling smaller defects.

Now through the end of December 2013, customers who purchase 4 packages of Mini Cartridges will receive one additional package FREE! Purchase at least 2 packages and receive the Mini Cartridge Dispenser FREE!

* FREE Dispenser limited to one per customer. Not to be combined with any other promotions or discounts. Offer valid through December 31st, 2013.
Scenes from the AAID

Dr. Ron Nguyen and Helen Trang demonstrate the use of Ultralight Optics products at the company’s booth at the AAID Annual Meeting.

Dave Dommel, director of sales, is ready to help at ACE Surgical’s booth.

AAID’s Dental Marketplace helps clinicians do their online shopping

By AAID staff

The American Academy of Implant Dentistry’s online Dental Industry Marketplace is a leading source of information for practitioners seeking to purchase services or supplies.

Available from a link on the AAID homepage (www.aaid.com), the Dental Industry Marketplace features industry-specific product and service listings designed to aid AAID members and the implant dentistry community with their purchasing decisions.

The 2013 edition of the buyers’ guide includes request for information (RFI) functionality that allows users to contact participating suppliers with a click of their mouse. With a downloadable desktop search application available, visitors also have the ability to search for items directly from a small search window on their desktops—making the search process convenient and time-efficient.

There is even an app for your Apple device so you can access the Dental Industry Marketplace on the go. Visit the Apple Store to download the AAID mobile app or scan the QR code at right.

For more information, visit www.dentalindustrymarketplace.com or www.aaid.com.
A Legacy of Innovation

**Legacy™4 Implant**

- All-in-1 Packaging includes implant, fixture-mount, abutment, transfer, cover screw & healing collar — $225 SBM, $250 HA surface

- Concave transgingival profile matched with healing collar to shape soft tissue for improved esthetics

- Quadruple-lead micro-threads

- Progressively deeper butress threads

- Three long cutting grooves

- Square top detaches with impression for metal to metal transfer accuracy

- Two-Piece fixture-mount (patent pending) with preparable abutment

- Torque-safety feature prevents damage to implant interface

---

**A Legacy of Innovation from Dr. Gerald Niznick**

Legacy 4 — the culmination of 30 years of evolution

Introducing a revolutionary 2-piece fixture-mount/abutment that provides the accuracy of an open-tray transfer with the simplicity of a closed-tray transfer.

Square top detaches with the impression, providing a snap attachment for abutment/analog.

The abutment portion of the fixture-mount snaps onto the transferred top for the accuracy of a metal-to-metal connection.

Legacy™ 6mmL Implants
Short in Length, Long on Stability

Legacy™ 6mmL Advantages:

Industry-Compatible Internal Hex Connection (Niznick US, Pat. #4,960,381)
Provides a secure, anti-rotation implant-abutment junction

More Choices
Six widths (3.7, 4.2, 4.7, 5.2, 5.7 or 7.0mm)
Two surface options (SBM or HA)

Tapered Body with Double-Lead, Self-Tapping Threads
Speeds insertion while enhancing initial stability

Quadruple-Lead Micro-threads (Niznick US, Pat. #7,677,891)
Reduces crestal bone loss

Greater Surface Area
Increases stability and load-bearing capacity

All-in-1 Packaging
Three Packaging Options - each with Cover Screw and 2mm Healing Collar
Legacy2: $175 Fixture-mount is transfer and can be sectioned for use as temporary abutment
Legacy3: $200 Fixture-mount is transfer and can be sectioned for use as final preparable abutment
Legacy4: $225 2-Piece Fixture-mount is super-accurate transfer and final preparable abutment

Joining the Legacy Family for the Widest Range of Dimensional Options

3.2 3.7 4.2 4.7 5.2 5.7 7.0
7 Diameters (mm)

6 8 10 11.5 13 16
6 Lengths (mm)
